

# Academic Symposium

**Speaker:** John C. Lucchesi

Asa Griggs Candler Professor of Biology  
Department of Biology  
Emory University

**Research interest:** Regulation of transcription;  
functional architecture of chromatin.

**Title:** Histone H4 lysine 16 acetylation:  
an epigenetic mark of distinction in Flies  
and Humans

**Speaker:** Guy M. Benian

Professor of Pathology and Cell Biology  
School of Medicine  
Emory University

**Research interest:** Muscle and cytoskeleton of  
non-muscle cells in *Caenorhabditis elegans*.

**Title:** Using *C. elegans* to study the assembly  
and maintenance of the muscle contractile  
apparatus

**Hosts:** Professor Fanglin Sun, Professor Junmin Pan

**Time:** Sept. 19, 10:00 - 12:00 am

**Location:** Building of Medical Science, B323#

School of Medicine  
Department of Biology
